## ACADEMIC PROJECTS

### **Hotel Management System (Java)**

- Full-featured system for managing bookings, rooms, and guests.

### **Inventory Management System (HTML, CSS, PHP, JavaScript)**

- Web-based inventory tracking and reporting system.

### **Car Rental System (C#)**

- Desktop application for managing car rental operations.

### **Tasbeeh App (Android (Java))**

- Mobile counter app with intuitive UI.

### **BMI Calculator (Android (Java))**

- Health utility app calculating body mass index.

### **Scientific Calculator (C#)**

- Feature-rich desktop calculator with advanced operations.

### **Face Detection System (Python (OpenCV))**

- Real-time face detection using computer vision.

### **Smart Attendance System (Python / OpenCV)**

- Automated attendance tracking system using face recognition technology

### **Smart Minutes – AI Meeting Recorder & Summarizer(FYP)**

- AI-powered system for recording and summarizing meeting minutes automatically.
